ABOUT ME

Data analyst with a robust background in data analysis and visualization, emphasizing expertise in Google Sheets, Excel, and Power BI for data management and visualization. Proficient in leveraging these tools to extract insights and present data effectively. Skilled in SQL for data querying. Additionally, experienced in Python programming, utilizing libraries such as NumPy, Pandas, and Matplotlib for advanced data analysis.

EXPERIENCE

DELTA INDIA | Data Analyst
Oct 2022 - Present | Pune, MH
- Evaluated and presented Power BI scorecard wireframes, resulting in a 40% increase in data visualisation productiveness and simplifying deliberating methods for stakeholders throughout the organization.
- Worked on the development of interactive reports using Live, Import, and Direct Query modes in Power BI Desktop; facilitated data-informed decision making across interdisciplinary teams, boosting to 20% customer satisfaction.
- Proficiency in Excel was indispensable, given the extensive data analysis demands relying heavily on Pivot tables and VLOOKUP formulas.
- Performed Data Validation to ensure Data quality, completeness, and correctness by working with business partners using MS Excel
- Implemented bookmarks in single tab, incorporated slicer synchronisation, edit interaction in report for better readability and user feasible reports.
- Developed SQL queries to extract, manipulate, and/or calculate information to fulfil data and reporting requirements including identifying the tables and columns from which data is extracted.
